

Meet the Clover Solution Suite

Merchants get paid, sell more and run their business better with Clover in their corner.

Small businesses run better with Clover in their corner.

Clover is designed to be flexible enough to meet the unique needs of merchants.

Get Paid

Clover provides merchants with the right mix of POS hardware and software to take credit cards, EMV chip and contactless payments from customers – safely and securely.

Sell More

Clover gives merchants the tools to pump up sales with both their new customers and their biggest fans.

Run Your Business.

Timesheets, payroll, marketing, accounting. Clover handles all the stuff merchants don't have time for, so they can focus on the stuff they got into business to do.

Delivering Commerce to Merchants

Wherever your customers are.

Countertop

Station

The most powerful countertop POS with pivoting touchscreen with integrated NFC, customer display and EMV chip

Mini

Accept swipe, EMV chip and NFC payments right out of the box.

Flex

Ultimate flexibility: use it in line, at the table, at the counter or on the go.

Go

Smartphone-ready for secure card swipes, dips and contactless payments.

Online

Online Store

Turn-key web presence for SMBs, with fully integrated inventory and payments.

Clover Station – Integrated POS

When you're serious about payments, this is your POS.

Clover Station is the backbone of your operation.

Make payments, track inventory, manage time sheets, run reports, print from its connectivity hub. It's a cinch to set up with everything right at your fingertips.

Clover Register Retention Impact

Merchant retention is higher with Clover Register vs non-Clover terminals¹

1. Comparative retention rates for SMB portfolio merchants at 24 months of tenure.

Clover Station 2018 Value Prop

Clover Station 2018 is *the* point of sale and payments system for merchants that want to simplify and centralize payment acceptance, customer engagement and operations management using one integrated device.

- > Complete System
- > Robust Software
- > Ultimate Flexibility
- > Multi-Layered Protection

Clover Station 2018 Features

- > Process credit, debit and gift cards: accept mag stripe, EMV chip and signature + NFC/contactless payments
- > 14-inch, 1920x1080 high-definition screen for clear, crisp images
- > Swivel screen accepts on-screen electronic signature; email and text receipts
- > Optional full-size 80mmx80mm printer with 4.3" customer facing display
- > Lithium-ion 4000mAh, 15.20Wh battery can last up to 4 hours of typical SMB use on a single charge
- > QUALCOMM® Snapdragon™ 810 octa-core processor and 3GB memory means you can get business done quickly
- > PCI PTS 5.0 certified

4.3" Customer Display

Clover Station 2018 Benefits

- > Minimizes peripherals/external devices required, reducing TCO
- > Added layers of protection for merchant and customer data
- > One integrated system designed to work together
- > Reduces operational issues caused by disparate systems
- > Open platform
- > Faster transaction speeds
- > Pre-installed apps
- > Enhanced user experience
- > Customized app market
- > Easy setup, use and troubleshooting

Clover Station 2018 Printer Options

Quick Serve Restaurant, Retail

Printer with customer display provides personalized customer interaction and contactless payment acceptance

Full-Service Restaurant and Bars

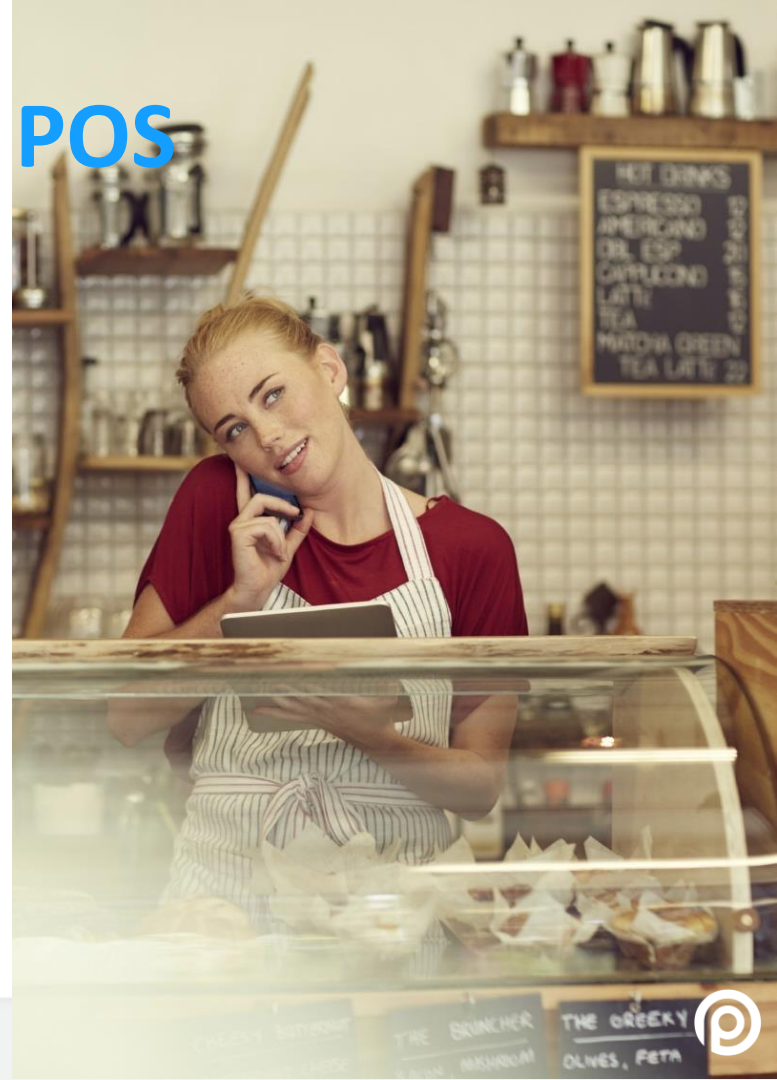

Printer without customer display ideal for processing transactions away from customers

Clover Station – Integrated POS

QSR, FSR, Retail, and Appointment businesses that...

- > Need a solution to simplify and centralize the management of business tasks and payment acceptance into one device
- > New First Data or Clover merchants
- > Existing First Data or Clover merchants close to contract renewal
- > Require item sales, orders and inventory tracking at a more complex level
- > Desire tighter integration between the front counter and back of house

Clover Mini: Payments Plus

A compact countertop POS with the guts to go big.
Accept swipe, EMV chip, and NFC payments right out of the box.

Hardware That Scales

Merchants can add more POS components and capabilities as needed

Software That Multitasks

Customizable with do-it-all apps for whatever a business needs. Over 100 value added apps now available for Payments Plus operation

Big display. Huge advantage.

Users see things clearer than ever with Clover Mini's large, vibrant touch screen

Print receipts

Keep things moving at the register by printing customer receipts on the spot.

Invented a market segment

First "smart terminal" in the market, essentially inventing the category. Over 50% of new terminal shipments in FD's Partner channel in 2016

Clover Flex – Mobile and Flexible

Free your hands, mind and countertops for the things that matter.

Off-site sales.

Because it's 3G/WiFi enabled, Clover Flex lets you accept payments outside of your store *and* on the road.

Pay at the table.

Process a card, print the receipt, get a customer signature and tip adjust without missing a beat.

All in One.

Clover Flex is packed with features like a printer, camera, and 1D/2D barcode scanner.

Get Paid.

From credit cards to debit cards, EMV chips or NFC payments like Apple Pay, Clover Flex accepts a full suite of payment types.

Clover Go – What Are the Benefits?

Go here. Go there. Process payments anywhere.

Accept a wider range of payment options: MSR, NFC (Apple Pay, Android Pay) and EMV Chip. Available in a Countertop Mode. Bluetooth enabled (compatible with iPhone 7).

Low Entry Cost But Powerful Functionality

Fast and reliable, using core Clover® architecture. Merchant controls inventory, employees, tax rates and other admin functionalities through Clover dashboard.

Ability to switch between different merchant accounts within the App

The *only* Clover solution that supports Multi-MID functionality – with the ability to switch between users within the App as well

Scalable

Merchant's relationship with Clover can grow as their business does (Transition to other Clover devices with ease)

PLUS:

- > Transactions are encrypted and protected with TransArmor®
- > Access to full range of Clover solutions, including Clover Insights

Clover Go vs. Square

Clover Go NFC

Square NFC Reader

<i>Connectivity</i>	Bluetooth	Bluetooth
<i>Contactless Payments</i>	Yes	Yes
<i>Swipe</i>	Yes	No (requires separate device)
<i>Dip</i>	Yes	Yes
<i>Apps</i>	100+ (excludes certain apps)	30+
<i>Insights</i>	\$9.95	3rd Party

Clover Accessories

Clover accessories provide a broad range of functionality for our clients.

Kitchen Printers

We offer STAR kitchen printers.

Barcode Scanner

Our Clover-customized scanner can capture barcodes from paper labels, screens and more.

PIN Debit – FD 40

Works with Clover Station to accept PIN-based debit transactions, contactless payment transactions and EMV.

Weight Scale

Merchants who sell their wares by weight can speed up checkout with the customized Clover weight scale.

Clover Software Positioning

Every business owner has a unique set of needs. That's why there are **three tiers** of Clover Software plans - so you can choose the features that best meet the needs of your business.

Clover Gift Cards and Customer Engagement

Easy-to-use solutions provide new ways to interact with customers – available in the Clover App Market.

Clover Gift Cards

Simplifies selling and managing custom-branded plastic and digital gift cards. Customers can even buy and redeem gift cards right from their smartphones.

			
<u>Customers</u>	<u>Rewards</u>	<u>Promos</u>	<u>Feedback</u>
Understand customers and provide great service	Keep your regular customers coming back	Reach out and bring customers through the door	Hear what your customers think, in private

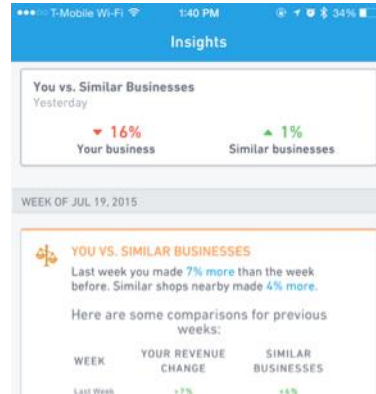

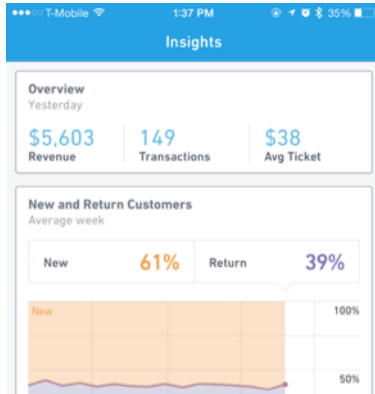

Customer Engagement

Links customer rewards to real transactions, so merchants can track how effectively customers are engaging with them. The four Clover Customer Engagement apps (Customers, Rewards, Promos and Feedback) are designed to work separately or together to deepen customer relationships, and to help you create new ones.

Clover Insights

Transforms payment data into valuable insights about customers, sales and similar businesses.

App Market Pricing:

Clover Insights is \$9.95 via the App Market.

Uncover Sales Trends

Improves understanding of customers, sales trends and other businesses in the area

Gain a Competitive Advantage

Provides actionable, customized insights and recommendations that aid merchants in making the right decisions to grow their business

Find New Customers

Easily monitor their business performance using key metrics in their Insights dashboard.

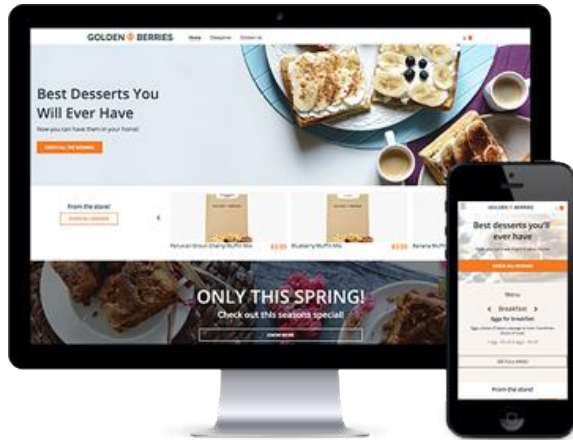

Big Data for Small Business

Access your data any time from any location with this easy-to-use, cloud-based solution

Clover App Market

Merchants can work from professional templates to design their own web store that accepts payments.

Simple SEO

Online stores powered by Clover come with an automatic search engine optimization feature.

Mobile Ready

From the get-go, our sites adjust to fit all devices –online, tablet or smartphone.

Built-in Payments

Merchants can accept payments from the start – no integration work required.

Automatic Upgrades

The web site stays current with all the latest updates and upgrades automatically – no downloads required.

Secure

Backed by Clover Security, which helps keep transactions safe from hackers and malware.

Clover Check Acceptance

Provides access to one of the industry's most robust check authorization systems.

- + **Offers More Payment Choice**
Accommodate customers who want to pay by check.
- + **Lowers Merchant Expenses, Quickens Merchant Returns**
Lower processing fees when accepting checks. Plus, they're typically funded within two business days.
- + **Reduce Risk**
Lessen chargebacks and significantly reduce fraud losses by shifting the responsibility of bad checks to us.
- + **Simplify The Process**
Just take a picture of the check with your Clover device and it's accepted (or declined) within seconds.

Clover Station 2018 PIN Entry Configuration

If a merchant needs PIN entry, the product configuration recommendation is a Clover Station 2018 with a receipt printer (non-contactless) and a Clover Mini tethered to the Station.

The payments and display will be pushed to the Clover Mini from the Clover Station and the consumer will complete the payment on the Clover Mini.

Station 2018 tablet for primary point of sale functionality

Clover Mini tethered for PIN entry (Debit/EBT), NFC, EMV payments and Customer Display

Clover Receipt Printer for printing consumer receipts

Pin Debit Configuration

Merchant Type	Pin Entry Need	Solution
Convenience Store	EBT	-Clover Station w/Clover Mini Tethered (FD40 PinPad does not support EBT)
Specialty Retail	Pin Debit	-Clover Station with/Clover Mini Tethered
Doctors Office	Pin Debit	-Clover Station with/Clover Mini Tethered
Other (Average ticket over \$35, pay at counter)	Pin Debit	-Clover Station with/Clover Mini Tethered

Note: The FD40 PinPad is compatible with the Station 2018, but the Clover Mini tethered to Station 2018 is the recommended product. To board a FD40, the PinPad must be boarded as a cross-sale (with the pin-debit entitlement if needed).

Clover Station Battle Card

Elevator Pitch

Clover Station 2018 is the complete point of sale and business management solution you can rely on to help get the job done – from securely accepting payments to managing staff, sales, inventory and more. Powerful, yet easy to use, Clover Station 2018 includes personalized apps right at your fingertips and features like EMV acceptance, a large tablet screen, Wi-Fi and Bluetooth, that help simplify daily tasks.

With Clover Station 2018, everyday tasks stay on track, so you can focus on doing what you love.

Value Proposition & Benefits

Owning your business means juggling a lot - Clover Station 2018 is the complete point of sale and business management solution that helps lighten the load. Built with powerful capabilities, Clover Station 2018 allows you to securely accept payments and includes a variety of apps right at your fingertips to help simplify daily tasks, so you can focus on doing what you love.

The Clover Station 2018 value:

- **Complete Countertop System:** Manage daily tasks, engage customers and accept payments from one integrated countertop system
- **Robust Software:** Clover Station 2018 includes Clover Register, our most robust software that helps you manage complex inventory and orders, and fosters a tighter integration between your front counter and back of house
- **Ultimate Flexibility:** Clover Station 2018 works seamlessly with other Clover devices and peripherals, so you can do business wherever it takes you - at the counter, in line or on the go.
- **Multi-Layered Protection:** Fingerprint login, built-in encryption and tokenization with each transaction adds layers of security to protect you and your customers

Target Audience:

Merchant Type	SMB
Verticals	Retail QSR FSR Appointment Project
Card Process Volume	\$20k+ in card processing volume; 50+ transactions per month
Number of Locations	1 to 25
Transaction needs	All card and electronic payments e.g. Visa, MasterCard, American Express and Discover - Swipe, Tap and Dip, Signature, mobile payments (e.g. Apple Pay) and gift cards. *Compatible with TeleCheck App
Other Key Factors	Works with Wi-Fi and Bluetooth

Pain Points

- I need everything to be faster and more efficient but I have so many different tools for all the different things I do, from employees, to customers to inventory
- I spend a lot of time trying to ensure my front counter and the back of the house are on the same page
- I have more complex inventory and order management requirements and my current system doesn't do the job
- I'm growing quickly and have expanded my business to include new offerings and additional locations

Clover Station 2018 Battle Card

Solution Features

- Process credit, debit and gift cards + accept mag stripe, EMV chip and signature and NFC/contactless payments like Apple Pay and Android Pay
- 14-inch, 1920x1080 high-definition screen for clear, crisp images
- Swivel screen accepts on-screen electronic signature + email and text receipts
- Optional full-size 80mm x80mm printer with 4.3" customer facing display
- Lithium-ion 4000mAh, 15.20Wh battery can last up to 4 hours of typical SMB use on a single charge
- QUALCOMM® Snapdragon™ 810 octa-core processor and 3GB memory means you can get business done quickly
- PCI PTS 5.0 certified
- WiFi, Bluetooth 4.2 BLE
- Works seamlessly with all Clover Family devices

Qualifying Questions

- Do you feel like you're keeping up with the pace of your business?
- Do you juggle multiple devices, such as a electronic cash register and another device, at the counter to manage your business?
- Do you find yourself spending a lot of time reconciling front and back office operations?
- Do you need to send orders to a kitchen?
- Do you need to set and track appointments for your customers?
- Do you have complex inventory that includes variations like size and color?

Handling Objections

I use a tablet and a payment device that works well for me.

- Clover Station 2018 allows you to do more than a consumer tablet can it comes with built-in hardware and software tools to help you manage your business easier and securely accept payments so you protect yourself and your customers. As a result, Clover Station 2018 is more reliable and secure *and* can provide a worry free setup experience (one cable) compared to a tablet solution consisting of several parts.

There are too many apps – I don't need all of them.

- Clover Station 2018 comes with a variety of apps you need to run your business but you decide if or when you use them. You can use apps included with your Clover Station 2018 immediately at no cost or download additional apps from the App Market. The tools are available right at your fingertips when the time is right for you and your business.

I would prefer to have a separate screen for customer interaction.

- The Clover Station 2018 has an optional printer with a 4.3" customer display to highlight your logo, show costs for purchased items and accept contactless payments. If you would like to engage more with your customer, you can add the Clover Mini with a large 7" touch screen show promotions, gift cards, reward points.
